OT Fieldwork Site Profile

NEOTEC, 2023 (Revised 2024)

Adapted from AOTA Commission on Education & Education Special Interest Section Fieldwork Subsection:

Fieldwork Data Form (AOTA, 2008)

Thank you for your participation in the fieldwork education process. The Fieldwork Site Profile form helps maximize efficiency by using a standard format that can be shared among the NEOTEC academic programs.

The purpose of the Fieldwork Site Profile is to:

- Facilitate communication between fieldwork sites, academic programs, and students.
- Ensure students have access to information to help prepare for fieldwork placements.
- Ensure that the occupational therapy student coming to your program has a clear understanding of the expectations and learning objectives of OT practice in your program.
- Create a tool to help our OT/OTA program document the criteria and process for complying with all site requirements, maintaining site objectives and site data, and communicating this information to students prior to the start of the fieldwork experience.
- Meet accreditation standards for Accreditation Council for Occupational Therapy (ACOTE).

**** Signature below indicates collaboration with the academic program in establishing these fieldwork objectives.***

Information Sharing Authorization – OT educational programs regionally share this information with each other to reduce the burden of asking fieldwork sites to provide the same data to multiple OT educational programs. If you do not wish to have the above information shared amongst other OT educational programs, please indicate your preference by checking the box below.

I do not agree to authorize sharing of the above information with other OT educational programs.
